

Customs Clearance

ARI Shipping Corporation can arrange to have goods cleared through Customs in accordance with local procedures at any port, terminal or airport in the world. We have an in-house Customs Broker and import agents to provide support throughout all phases of the import process.

Our modern computer system is electronically linked with Customs via the Automated Broker Interface. It provides up to the minute information on the status of your freight. It even allows us to process some information prior to shipment arrival to facilities prompt customs clearance.

Once freight has been cleared, we can provide door delivery to any point. Our specialized services ensure that you'll receive your freight quickly and efficiently. Our staff is firmly committed to providing excellence in customs clearance and customer service.
